SUDAN SHAM ELECTIONS 2010

50 States - 50 Days of Action for Peace, Protection, and Justice

Dear Senators Boxer and Feinstein:

As a California citizen, I urge you to publicly and energetically support S Res 404, a bi-partisan resolution promoting full implementation of the Comprehensive Peace Agreement in Sudan. With April elections fast approaching, it is clear that conditions on the ground are neither free nor fair. Please join us in contacting President Obama and ask for his administration's commitment to begin a strategy in which fundamental human rights and civil rights violations have real and escalating costs. There is a real danger for resumption of full-out war between the north and south, and the genocide in Darfur continues, with millions of people living in squalid camps and exposed to horrible violence. The time for credible multilateral consequences in support of genuine democratic processes and verifiable commitment to peace is now. The US must lead. A group of us will visit your office in the near future to discuss our shared commitment to Sudan.
